From The Editors To All Iraqi Colleagues

The Iraqi journal of Gastroenterology is back to all interested members and colleagues in the field of Gastroenterology and Hepatology in the different disciplines of Gastroenterology practice in Iraq. The Iraqi Gastroenterology journal is under cover of Iraqi society for Gastroenterology and Hepatology which is considered now one of a well-established and active societies in our region.

The Iraqi society made good communication and collaboration with other regional and global Gastroenterology and Endoscopy societies like Pan Arab Gastroenterology Association, ESGE, and ASGE. These communications will give Iraqi Gastroenterology society good support for backing its members to upgrade the Gastroenterology field in Iraq and to make optimal services for our patients. As the leading clinical journal covering Gastroenterology and Hepatology, the Iraqi Journal of Gastroenterology provides practical and professional support for clinicians dealing with the Gastroenterological disorders seen most often in patients. The Iraqi Journal of Gastroenterology is a high-quality, peer reviewed, open-access journal.

The primary task of the journal is to rapidly publish high-quality original articles, reviews, editorials, and case reports in the field of Gastroenterology and Hepatology. In order to promote productive academic communication, the peer review process for the Iraqi journal of Gastroenterology is transparent; to this end, all published manuscripts are accompanied by the anonymized reviewers' comments. The primary aims of the Iraqi Journal of Gastroenterology are to improve diagnostic, therapeutic and preventive modalities and the skills of clinicians and to guide clinical practice in Gastroenterology and Hepatology.

GOD BLESS YOU ALL
